

At Amber Light Photography, each session is thoughtfully designed to capture your family naturally – relaxed, connected, and full of life.

I specialize in working with beautiful natural light, especially during the golden hour, to create images that are soft, warm, and timeless.

My sessions are calm and unhurried, allowing genuine moments to unfold naturally. With a careful eye for light and emotion, each image is crafted to feel both effortless and meaningful.

The result is more than a collection of photographs – **it is artwork** that captures not just how your family looks, but how this season of life truly feels.

## OUR LOCATIONS

I have carefully selected a collection of beautiful locations that offer the best natural light, each chosen with the season and time of day in mind. This ensures every session takes place in an environment that enhances the warmth and softness of your images. I'm also happy to discuss a location that is meaningful to you, provided it offers suitable light for the style of my work.
